

??????

- 
- Figure 1: Schematic representation of the experimental design. The figure shows a vertical timeline of 12 trials. Each trial is represented by a horizontal bar divided into segments. The segments are labeled with 'TOA' (Time of Arrival) and 'SO1' (Stimulus Onset) or 'SO2' (Stimulus Onset). The trials are numbered 1 to 12 on the left. The timeline shows the sequence of events for each trial, including the presentation of the stimulus and the measurement of the time of arrival.
