[illegible]

Diagram illustrating the relationship between the number of squares and the length of the bars. The bars are arranged vertically, and the number of squares is indicated by the length of the bar. The top bar is the longest, followed by the second, third, fourth, fifth, sixth, and seventh bars in descending order of length. The seventh bar is the shortest.

Labels on the right side of the diagram:

- Bar 3: 10 [four small squares]
- Bar 4: 1 [three small squares]
