Diagram illustrating a DNA molecule with 10 base pairs. The top strand is labeled 'A' and the bottom strand is labeled 'B'. The base pairs are: A-T, T-A, G-C, C-G, A-T, T-A, G-C, C-G, A-T, T-A. The strands are connected by hydrogen bonds (dashed lines).

Diagram illustrating a sequence of horizontal bars of varying lengths, labeled 1 through 7 from left to right. The bars are arranged in a staggered, descending pattern from left to right. The first bar is the longest, followed by a shorter one, then another, and so on, with the last bar being the shortest.
