The diagram consists of 100 small squares arranged in a grid. The squares are organized into 10 rows and 10 columns. The first row contains 10 squares, all of which are red. The second row contains 10 squares, all of which are blue. The third row contains 10 squares, all of which are red. The fourth row contains 10 squares, all of which are blue. The fifth row contains 10 squares, all of which are red. The sixth row contains 10 squares, all of which are blue. The seventh row contains 10 squares, all of which are red. The eighth row contains 10 squares, all of which are blue. The ninth row contains 10 squares, all of which are red. The tenth row contains 10 squares, all of which are blue.

The diagram illustrates a sparse matrix structure using 10 horizontal bars. Each bar is composed of small squares, representing a discrete or quantized structure. The bars are arranged in two columns. The left column contains 6 bars, and the right column contains 4 bars. The bars vary in length and position, indicating a sparse distribution of non-zero elements. The bars are arranged in two columns, with the left column having 6 bars and the right column having 4 bars. The bars are composed of small squares, indicating a discrete or quantized structure.
