WI-IT-002 ?????????? iCash  
(Payroll)

**1.**

The diagram illustrates the flow of cash and payroll between a company and its employees. It consists of several horizontal bars representing accounts, with arrows indicating the direction of the flow.

- Company's Cash Account:** A long bar at the top. An arrow points from it to the right, labeled "Cash", and another arrow points from it to the left, labeled "(Payroll)".
- Employees' Cash Account:** A long bar below the company's cash account. An arrow points from the company's cash account to this bar, labeled "Cash".
- Company's Payroll Account:** A long bar below the employees' cash account. An arrow points from this bar to the company's cash account, labeled "(Payroll)".
- Company's Cash Account:** A long bar at the bottom. An arrow points from it to the right, labeled "Cash", and another arrow points from it to the left, labeled "(Payroll)".

**2.**

Diagram illustrating a sequence of 100 small squares arranged in 10 rows of 10. The first 9 rows are completely filled. The 10th row has the first 8 squares filled, followed by a gap, and then the last 2 squares filled. Below the 10th row, the text "Bualuang Payroll" is written, followed by another row of 10 squares, all of which are filled.

Positive Impact	20%

Diagram illustrating the lengths of 10 horizontal bars, each composed of small squares. The bars are arranged in two columns. The first column contains bars 1 through 7, and the second column contains bars 8 through 10. The lengths of the bars are as follows:

Bar Number	Length (Number of Squares)
1	20
2	15
3	15
4	25
5	15
6	15
7	25
8	15
9	10
10	10

The diagram consists of 10 rows of boxes. Row 1 contains four groups: 4 boxes, 1 box, 16 boxes, and a quote symbol. Row 2 contains 12 boxes. Row 3 contains 32 boxes. Row 4 contains three groups: 12 boxes, 16 boxes, and 8 boxes. Row 5 contains 12 boxes. Row 6 contains 32 boxes. Row 7 contains 12 boxes. Row 8 contains 32 boxes. Row 9 contains 16 boxes.

The diagram consists of 20 rows of rectangular blocks. Each row represents a set of data. The blocks are arranged in a grid-like pattern, with some rows having more blocks than others. The blocks are colored in a gradient from light blue to light green. The diagram illustrates the structure of a dataset, with rows representing different categories or groups of data.

[illegible]

The diagram consists of 12 horizontal bars, each composed of small rectangular segments. The bars are arranged in a staggered fashion across 12 rows. The first bar is at the top left. The second bar is shifted to the right. The third bar is shifted further right. The fourth bar is shifted to the left. The fifth bar is shifted to the right. The sixth bar is shifted to the left. The seventh bar is shifted to the right. The eighth bar is shifted to the left. The ninth bar is shifted to the right. The tenth bar is shifted to the left. The eleventh bar is shifted to the right. The twelfth bar is at the bottom left.
