-
- The diagram illustrates the hierarchical structure of the PPE (Public Protection and Emergency) system. It is organized into 10 horizontal rows, each representing a different level of the hierarchy. Each row contains a series of boxes, some of which are filled with black dots, indicating the presence of a specific element. The boxes are arranged in a way that shows the flow of information and the relationship between different levels of the system. The top row is the most detailed, showing a large number of elements, while the bottom row is the least detailed, showing a single element. The diagram is a visual representation of the PPE system's structure, showing how it is organized and how it functions.
