

????????????????????????????????  
 ???????

The diagram illustrates a data structure with multiple levels of organization. At the top, a long horizontal bar is divided into segments labeled 'S01', 'SPO', and 'S02'. Below this, several rows of data blocks are shown, some with labels like 'S01', 'SPO', and 'S02'. The diagram uses various colors (green, purple, blue) to highlight specific blocks and lines. The overall structure suggests a hierarchical or sequential data organization.
